How to buy

a) Download & setup MetaMask or TrustWallet
Download MetaMask (a crypto wallet in form of a browser extension) or TrustWallet (an app for your phone). After that, you will have to add the Binance Smart Chain to your network list.

b) Buy and send BNB to MetaMask

Buy BNB on an exchange (Binance, Kraken, Coinbase etc.). Transfer the tokens to your MetaMask wallet address. BEP-20 addresses start with a "0x"

Use this address (Address Will Be Updated Here After Swap Ends) to select yabba. Set the slippage tolerance to 15% (sometimes it may be a bit more, depending on how much demand there is)

Charity

We will provide ongoing support for community-voted charitable initiatives, including but not limited to those that fight hunger issues that affect child well-being. 8% of the token supply kept in the Charity Wallet will be used for this purpose.

Using the blockchain system to donate to charities provides full transparency of donations and reflects shareholder values. Our goal is to bring much more money and donor participation to all the charitable foundations we work with.
